**RFP 2021-111 Waste Management Services  
Addendum 4 – RFP Update**

This Addendum No. 4 for RFP 2021-111 Waste Management Services is issued by the City of Beaufort Finance Department. Except as modified by this Addendum No. 4, all areas of the RFP not specifically mentioned in or affected by this Addendum or previously posted Addendums shall remain unchanged.

RFP 2021-111 page 24, Item 1. Base Rate, a. b. and c. are amended as follows:

- a. The City intends that each unit shall account for a base rate for recycling collection. This base rate shall include the cost of collection of (1) Contractor-provided 96-gallon container, serviced bi-weekly. No limit is placed on the amount of properly prepared recyclables presented for collection.
- b. All proposals shall list the base rate in price quotes.

RFP 2021-111 page 24, Item 2 Recycling Containers, a. b. and c. are amended as follows: It is the intent of the City that the recycling collection programs continue without substantial changes. Changing the contractor supplied container system requires pre-approval by the City.

- a. Each household may discard 1 ninety-six (96) gallon container of recycling material every two weeks.
- b. To accommodate households which regularly dispose of more recycling material than one container can accommodate, the Contractor shall provide an additional container. Pricing for this additional service shall be listed on the enclosed Price Quotations.
