Policy Concerning Minority and Woman Owned Business Enterprises

Intent

Businesses owned and operated by women and minority persons, in general, have been historically restricted from full participation in the nation's free enterprise system to a degree disproportionate to other businesses.

The City believes it is in the community's best interest to assist minority and woman owned businesses to develop fully, in furtherance of City's policies and programs which are designed to promote balanced economic and community growth.

The City, therefore, wishes to ensure that minority and woman owned businesses (M/WBEs) are afforded the opportunity to fully participate in the City's overall procurement process and will not be discriminated against on the grounds of race, color, sex, or national origin in consideration for an award.

Goal for Participation

The City adopts the State of South Carolina's goal for participation of M/WBEs: ten percent (10%) of annual controllable procurement expenditures which are defined as agreements between the City and a Vendor to provide or procure labor, materials, equipment, supplies and services to, for or on behalf of the City. However, a specific expectation has not been set for this RFP.

Required Forms

Contractors submitting proposals are required to include completed forms that are found at the end of the General Terms & Conditions. The City's General Terms & Conditions, a required component of all competitive procurement proposals, may be accessed on the City's website under Quick Links – Bid Opportunities – www.cityofbeaufort.org. All proposers are to certify that they have read the General Terms & Conditions and will adhere to them as a component of the contract documents.

Contractors should also be aware that, should a contract be awarded, the City will require reports of the utilization of any minority business enterprises to be filed along with requests for payment. The City reserves the right to audit accuracy of the utilization reports that are filed.

The City of Beaufort reserves the right to reject any or all bids; to waive any informality or irregularity not affected by law; to evaluate, in its absolute discretion, the bids submitted; to award the contract according to the bid which best serves the interests of the City; or to not award the contract if the City determines that it is not in its best interest to do so.

Proposals that are not signed will not be accepted as complete and shall not be considered. Proposals must be signed in ink (not typed) in the appropriate space(s) by an authorized officer or employee of the offeror.

The words "Bidder", "Offeror", "Proposer", "Vendor", "Operator", "Contractor", and "Company" are used interchangeably throughout this RFP, and are used in place of the person, vendor, or corporation submitting a bid.

Allison Road Project
RFP 2022-101**

INTRODUCTION

Allison Road Pedestrian Connector Project is a planned improvement project to improve safety conditions and enhance pedestrian circulation for access to recreational, medical, and commercial areas within the City of Beaufort. The project is planned to address many factors that affect safety, mobility, drainage, and pedestrian access within the transportation network. The Project limits start at the intersection of Allison Road and Ribaut Road and extends approximately 1,300' to the Spanish Moss Trail.

SCOPE OF WORK

The scope of work consists of construction of an 8' sidewalk along the north side of Allison Road, resurfacing of the existing roadway, installing a new drainage system along a portion of the project, site lighting, and landscaping as shown on the Construction Drawings. Allison Road will be milled and overlaid at the beginning and ending of the project where existing curb and gutter exists and overlaid throughout the rest of the project. Furthermore, an underground utility duct bank system for electrical and telecommunication lines will be constructed along the entire length of the project and new service connections will be established throughout. The Contractor will be responsible for coordination with the City and the utility companies for removal of all overhead lines and poles and underground utility relocation planning and construction.

Some or all the funding for the project is being provided by a SCDOT Local Public Agency (LPA) TAP Grant, therefore all LPA requirements will apply to the contract.

CONTRACT TIME

The contract time to complete the project will be **180 days** from the given Notice to Proceed (NTP). The NTP will be coordinated with the City and the Contractor at the pre-construction meeting.
