Fill a Gap in the Business Community – Projects that bring a new or enhanced business type or model to the city are encouraged.

V. SELECTION

Proposals for the purchase and development of the Property will be evaluated according to the following criteria:

- The extent to which the proposed development satisfies a desired or unique niche in the marketplace and helps diversify the economy of the City;
- The increase in tax/fee revenues that may result from the development;
- The contribution that the development will make toward increased employment and earnings within the City, including the number and quality of jobs created
- The degree to which the development may potentially stimulate other desirable economic development and/or redevelopment activity;
- The beneficial economic impact the development may have on the area immediately surrounding the project;
- The extent to which additional direct or indirect public costs to the City would be necessary;
