POLICY CONCERNING MINORITY AND WOMAN OWNED BUSINESS ENTERPRISES

Intent

Businesses owned and operated by women and minority persons, in general, have been historically restricted from full participation in the nation's free enterprise system to a degree disproportionate to other businesses.

The City believes it is in the community's best interest to assist minority and woman owned businesses to develop fully, in furtherance of City's policies and programs which are designed to promote balanced economic and community growth.

The City, therefore, wishes to ensure that minority and woman owned businesses (M/WBEs) are afforded the opportunity to fully participate in the City's overall procurement process and will not be discriminated against on the grounds of race, color, sex, or national origin in consideration for an award.

Goal for Participation

The City adopts the State of South Carolina's goal for participation of M/WBEs: ten percent (10%) of annual controllable procurement expenditures which are defined as agreements between the City and a Vendor to provide or procure labor, materials, equipment, supplies and services to, for or on behalf of the City. However, a specific expectation has not been set for this RFP.

Required Forms

Contractors submitting proposals are required to include completed forms that are found at the end of the General Terms & Conditions. The City's General Terms & Conditions, a required component of all competitive procurement proposals, may be accessed on the City's website under Quick Links – Bid Opportunities – www.cityofbeaufort.org. All proposers are to certify that they have read the General Terms & Conditions and will adhere to them as a component of the contract documents.

Contractors should also be aware that, should a contract be awarded, the City will require reports of the utilization of any minority business enterprises to be filed along with requests for payment. The City reserves the right to audit accuracy of the utilization reports that are filed.

The City of Beaufort reserves the right to reject any or all bids; to waive any informality or irregularity not affected by law; to evaluate, in its absolute discretion, the bids submitted; to award the contract according to the bid which best serves the interests of the City; or to not award the contract if the City determines that it is not in its best interest to do so.

The words "Bidder", "Offeror", "Proposer", "Vendor", "Operator", "Contractor", and "Company" are used interchangeably throughout this RFP, and are used in place of the person, vendor, or corporation submitting a bid.

REQUEST FOR PROPOSAL
CITY OF BEAUFORT
HERMITAGE POND OUTFALL (RFP NO. 2019-100)

I. INTRODUCTION

The City maintains an outfall pipe out of a pond at the end of North Hermitage Road that outfalls from a nearby pond directly to Battery Creek. The pond and outfall pipe are on private property but receives storm water from the basin along Hermitage Lane. Portions of the pipe have separated, and the pipe is need of repair/replacement. The project is to repair/replace approximately 180 lf of pipe as well as the associated headwalls. Two options have been identified for the project: remove existing CMP and replace with equivalent RCP or slip line the existing pipe. The contractor has the opportunity provide a price for each alternative or simply for only one option. The two options are further described below.

II. SCOPE OF WORK

OPTION #1 – REMOVE AND REPLACE PIPE

The contractor shall remove the existing 18” CMP and replace with 18” RCP. Contractor to replace concrete headwall at the pond and install new headwall on the outfall end of the pipe with a rip rap apron into the marsh. New pipe is to be placed at the same elevations and slopes as the existing run of pipe. Any new elevations and slopes of the proposed drainage system will have to be approved by the City prior to installation. Due to the close proximity of the residential structure and depth of the pipe, the contractor will be responsible for any/all shoring required to safely conduct the work and not damage the nearby residential structure. Any excess material will be responsibility of the contractor to haul off and remove. Once complete, all disturbed acreage to be dressed and seeded with permanent vegetation. The cost for all work of the defined scope, to include mobilization, bonds, staking and grading, etc., should be included and provided in a lump sum total cost.

OPTION #2 – SLIP LINE EXISTING PIPE

The contractor shall provide a collar to extend the existing pipe with a like kind material to the original outfall location. Contractor to construct a new headwall on the outfall end of the pipe with a rip rap apron into the marsh. Once section of pipe is installed, contractor to slip line pipe with approved material. Slip line material to be submitted and approved by the City of Beaufort prior to installation. Contractor to ensure all voids in the material above the pipe are filled or stabilized as part of the slip line work. Contractor to clean existing pipe prior to placing the lining material. Additionally, contractor is required to video inspection of the pipe before and after the pipe to ensure proper installation. Due to the close proximity of the residential structure and depth of the pipe, the contractor will be responsible for any/all shoring required to safely conduct the work and not damage the nearby residential structure. Any excess material will be responsibility of the contractor to haul off and remove. Once complete, all disturbed acreage to be dressed and seeded with permanent vegetation. The cost for all work of the defined scope, to include mobilization, bonds, staking and grading, etc., should be included and provided in a lump sum total cost.
