Comments: This is a rebid due to only 1 bid received last attempt. This time we received 1 bid and decided to open. Koppers took some exceptions and they are: They will supply poles at last years usage in equal installments per month instead of the requested amount. They cannot guarantee supply of poles above last years usage amount. Current lead times are 4-6 week after receipt of order. Any deliveries beyond 6 weeks will be communicated at the time of order placement. Koppers will review pricing with the City of Wilson every 3 months and adjust as market conditions

I certify that bids were read aloud for this RFP on the due date and time above.
