| <b>ADDENDUM MUST BE SIGNED AND INCLUDED IN YOUR RESPONSE TO THE RFB.</b>   |   |  |

**QUESTIONS:**

1. I just want to confirm that the specification calls for the same make of meters as those already owned by the Authority, which are identified in the specs as ADS. If we are incorrect in our interpretation of the spec, please let me know and we would be happy to provide a competing bid for the new equipment to the bidding service providers.

Answer: Your interpretation is incorrect. According to the Specifications, on page 4-1.1 of the RFB documents, under Section 1.2 – Monitoring Equipment: *“Currently all of the interjurisdictional billing sites have ADS Triton + flow monitoring installed. These monitors are not owned by CCWA but by the current Contractor. For consistency and accuracy of the flow data provided to other utilities, the successful Bidder will be required to install **equivalent equipment** at all locations.”* The specifications do not call for “same make of meters” as those already installed; CCWA is calling for “**equivalent equipment**”, meaning similar or comparable to the existing meters.
