ADDENDUM #1
ITB 17-PW10
CITY OF MILTON STREETSCAPE PROJECT
P.I. NO. 0011675

This Addendum forms a part of the contract documents and **modifies** the original ITB documents as noted below:

1. According to the typical sections, the overlay will be "Recycled Asph, Conc 9.5 MM Superpave, GP 2 Only, Polymer- Modified" but Additive Alternate No 2 Items call for "Recycled Asph Conc, 12.5 MM Superpave, GP 2 Only, Incl Bitum Matl & H Lime". Which should the contractor install?

Answer: The Additive Alternate No 2 should be revised to Recycle Asph Conc 9.5 MM Superpave, GP 2 Only, Polymer – Modified. This addendum includes an update Section B Proposal Form sheet B-7.

2. Also, the drawings (13-01) call for the beginning of asphalt mill and inlay to be at station 101+28.50 although there is a plan note #13 that calls for mill and inlay to begin at the construction limits. See attached. Where should contractor begin mill and inlay of asphalt?

Answer: The contractor should begin mill and inlay of asphalt at station 101+28.50. There may be an add or deduct based upon coordination with PI 0007313 that is currently underway.

3. Should Additive Alternate No 4 include only the Sidewalk and Valley Gutter or should C&G, conduit, landscaping, etc. also be included?

Answer: Additive Alternate No 4 should only include the items listed. The other items are included in the base bid or other alternates.
