8. A written Notice to Proceed shall be issued prior to the start of work.

The Contractor is responsible for adjusting asphalt prices according to MoDOT's Asphalt Cement Price Index prior to submitting invoice. MoDOT's Asphalt Cement Price Index can be found posted on the MoDOT website, www.modot.org, go to Business, then Contractor Resources, the Bid Opening Info, under the heading Documents click on Asphalt Price Index. Viewing the month of the letting will show the Asphalt Price Index for the month. The Asphalt Cement Price Index is posted the Monday prior to the third Friday of each month. Please use the most current Asphalt Cement Price Index.

Adjustments will be made to the payments due the bidder for any plant mix bituminous base, plant mix bituminous pavement, plant mix bituminous surface leveling, asphaltic concrete pavement and ultrathin bonded asphalt wearing surface that contains PG64-22, PG70-22 or PG76-22 when it has been determined that the monthly average price for the midpoint of the published prices of PG64-22 for St. Louis, Missouri area and Kansas City area has fluctuated from the monthly average price of the month

the project was bid. The St. Louis, Missouri area and Kansas City area prices will be obtained from the Asphalt Weekly published by Poten & Partners Inc. The monthly base price will be the price from the last published Asphalt Weekly Monitor prior to the bid opening. The monthly base price, established prior to the monthly bid opening, shall apply to payment estimates for the following month.

The adjusted contract unit price will be applied to the actual amount of asphalt binder. The percentage of virgin asphalt, as shown in the job mix formula, will be the basis for adjustments for any asphalt mix purchased during the monthly index period. The effective asphalt obtained from the use of Recycled Asphalt Pavement (RAP) and/or Recycled Asphalt Shingles (RAS) will not be eligible for adjustment. The base price index for PG64-22 will be applied to the asphalt mix for mixed using PG64-22.

To determine the adjustment for any material specified in this provision the following formula will be used.

$$A = (B \times C) \times (D - E)$$

Where: A = Adjustment for mix placed during monthly average index period
 B = Tons of Mix Placed during the monthly average index period
 C = % of virgin asphalt binder as listed in the job mix formula in use
 D = monthly average price at time of mix placement
 E = monthly average price at time of bid
