

## Addendum #1- CMAR Services for the Jones County Jail Additions and Renovations

- We have received some questions. Please see the answers to those below:
  1. Our question relates to item number 5, financial information. We are happy to provide the “Good Guy Letter” from our Bonding Company along with proof of bonding capacity. Our CPA can provide financial information and ratios that show our company is financially sound and has the ability to complete this project. Due to our long standing relationship with our Bonding Company we are not required to complete an Annual Audit. Is the above information sufficient to satisfy item number 5? **Yes, this information will be sufficient.**
  2. I wanted to make sure we are correct in our understanding of items that are not to be made public. Are we allowed to mark the Proposal Form and Exhibit A General Conditions as bona fide trade secrets and provide them in a separate envelope inside the qualifications and submittal package? **It is fine to have them submit the pricing proposal in a separate envelope.**
