

**REQUEST FOR QUOTES
TOWN OF HAMPTON
ASBESTOS TESTING SERVICES (4-NR-17-002)
ADVERTISED OCTOBER 25, 2019**

**ADDENDUM #1
Dated: November 8, 2019**

The following questions have been submitted for clarification:

We would like to put a bid in to inspect, test, and survey for asbestos as well as handle the abatement process if needed. We specialize in demolition as well.

Answer: To clarify, this bid is to inspect, test, and report on the asbestos in the identified structures. If asbestos is found and needs abatement, that will be part of a separate demolition contract. If air monitoring is needed, the same firm that does the original asbestos inspection will work with the demolition contractor to provide that service.

For the line item "Duration of time needed for the Site visit and testing, and issuing of the reports", are you looking for the length of time between beginning the asbestos inspection and final submittal of the Asbestos Survey Report?

Answer: Yes

When are you anticipating to award the bid?

Answer: The bids must be reviewed and approved by the SC Department of Commerce before an award can be made. This may take up to 30 days.

Reminder: Please acknowledge **"Addendum #1 – November 8, 2019"** on the original bid form.

Please submit an original written and signed bid form (email bids not acceptable) by 4:00 PM on Wednesday, November 13, 2019 to:
