#### Questions and Answers

- Q1 Question regarding Bid Submittal Page 2, Pricing.  
The table is asking for prices in gallons and tons, 2 different products (58-22 and 67-22), also with anti-strip and without anti-strip. Correct me if I am wrong but the bid is for a total of 2250 tons. Adding up all 8 lines gives a grand total price for doing 18,000 tons (2250 tons \* 8). I do not believe this is what the county is looking for. The total price would be one product (58-22 or 67-22) with either anti-strip or without anti-strip. Could you advise how you would like the grand total figured please.
- A1 The bid form is being used to establish unit pricing in both gallons and tons. The Grand Total is being utilized for bidding purposes only to establish the overall lowest bid.**
