**Page 22:**

Section 2. Paving, Item b.

Bituminous tack and prime coat shall be measured by the gallon as outlined in the TDOT specifications. This item shall be paid for at the bid unit price per gallon for bituminous tack coat. To be included in "mix in place" prices.

Copies of pages 16 and 22 of bid package are included with this document with changes/clarifications in red.

These items were discussed at the pre-bid meeting held today at 2 pm, August 21, 2023.

Please contact Public Works Director Buck Vallad at 931-684-2644 or Purchasing Director Lori Saddler at 931-684-2691 if you have any further questions.

**SECTION EIGHT  
MEASUREMENTS  
AND PAYMENTS  
CITY OF SHELBYVILLE  
201 N. Spring Street  
Shelbyville, TN 37160**

**Page 1 of 2**

**1. General**

- a. Measurement for payment on a unit price basis shall be as described below. Payment for each unit installed shall be made according to the unit price bid, as listed in the bid form. Only those items appearing in the bid form will be considered for payment on a unit price basis.
- b. Even though an item of work is included in the technical specifications, if it is not both covered herein and specifically itemized in the bid form, payment for it shall not be separately made. Such work shall be considered a necessary part of or incidental to its related work.

**2. Paving**

- a. Base and shoulder stone shall be measured by the ton as outlined in the standard specifications of the Tennessee Department of Transportation (TDOT), except that all water used shall be considered an incidental part of the whole for which no separate measurement or payment shall be made. This item shall be paid for at the bid unit price per ton for mineral aggregate base, and this price per ton for base or shoulder stone shall include any and all labor equipment costs required for placing the stone.
- b. Bituminous tack and prime coat shall be measured by the gallon as outlined in the TDOT specifications. This item shall be paid for at the bid unit price per gallon for bituminous tack coat. **To be included in 'mix in place' prices.**
- c. Asphaltic concrete leveling course binder and asphaltic concrete surface course shall be measured by the ton as outlined in the TDOT specifications, except that no difference shall be made for the various ingredients. These items shall be paid for at the bid unit price per ton, complete in place, with no separate payment for any ingredients of the mix or any materials consumed in its installation.
- d. A copy of all load tickets for stone, oil, or asphaltic concrete, showing the weight for each load of aggregate and signed by the contractor or his representative and given to the Public Works Director, no later than the next day after completion.
