

**City of Raton RFP No. 2022-01-06**

**ENGINEERING SERVICES AT THE RATON MUNICIPAL AIRPORT**

**RFP Questions and Answers**

**The City of Raton Procurement Manager has received the following questions in response to its Request for Proposals (RFP).**

---

**Question #1:** On page 8 of the PDF (6. Selection Process, sub-section 3), it states mid-paragraph, "Contact with the Airport Manager is allowed for project information and airport visits." Is this contact allowed to be initiated by our firm and are we allowed to do so before the selection process?

**Response:** The City of Raton's contracted FBO is Express Aviation Services LLC and they do not have any authority or influence over the selection process so it is acceptable for you to initiate direct contact with the Airport Manager including an airport visit before the selection process. The airport managers contact information is:

Dusty Longwill, Aviation Manager  
Express Aviation Services LLC  
575-445-3076  
[dusty.longwill@exaviationservices.com](mailto:dusty.longwill@exaviationservices.com)

I certify that as of 5:00 p.m. on January 21, 2022 these are the only questions received by the deadline stated in the RFP and that this information has been shared with all potential offerors who returned the completed acknowledgement of receipt form and also posted on the City of Raton Website: [www.ratonnm.gov](http://www.ratonnm.gov).

  
Michael Anne Antonucci  
Chief Procurement Officer
