

2223-014 Addendum #2 4-19-23

1) Additional Equipment to be added to bid please see below:

Item #	Description	Amount
086-PBOX-SET	Plyo Box Set Includes (1) or each 6", 12", 18" & 24"	2
	Encode Training Sensors Download, Apple iPad's, iPad Magnetic Mounts and Protective Armor Enclosures, Tech StartUp and Support (1 year license). Training included.	8

- 2) The RFP requests a bid bond on Page 13, Section 1, but there is no further mention of this requirement. Could you kindly clarify whether a bid bond is mandatory for this project and provide additional details on the requirements? **No, a bid bond is not mandatory for this project.**
- 3) Our company ('Offeror') and our subcontractor are both registered to operate in South Carolina, however we do not possess a contractor's business license, as we are not a contractor, and it is not necessary for our scope of work. Can you please advise if our general business licenses/registration will be sufficient for the proposal submission and to execute the work if awarded? **Yes that should be sufficient.**
- 4) The Kevlar Balls that are listed on the equipment list have been discontinued by the manufacturer. They still have a few sizes left, but they no longer have the 10lb and 12lb balls that were specified. Would you like to look at different sizes for this option or a different product all together? **A comparable product would be acceptable. Please provide specifics for comparison.**
- 5) We would appreciate it if you could provide us with CAD/Architectural drawings of the weight room to ensure accurate measurements. Alternatively, would it be possible for our sales rep to take measurements during the pre-bid meeting instead? **We had a pre-bid meeting today 4/25/2023 at 10 am**
- 6) The turf specified for this project has a different overall height than the Encore Ultra Tile flooring. To ensure an even surface beneath the feet and eliminate any trip hazards or the need for transition strips, we recommend installing an 8mm or 10mm rubber underlayment between the subfloor and the turf. In order to include this recommendation in the project specifications and requirements, would you like us to add the 8mm or 10mm underlayment to the bid? Alternatively, we could plan to install the two floor coverings at different finished heights. Please let us know which option you prefer. **Please bid as it is specified and add a price as an option for the underlayment.**
- 7) **The bid opening that needs to be specified on the outside envelope or box needs to be the date that the bid closes, we will open that day to verify all information is correct before the committee meets to score.**
