

### **Addendum #3 5-3-2023**

The addendum requests a QTY of 8 of the following item: Encode Training Sensors Download, Apple iPad's, iPad Magnetic Mounts and Protective Armor Enclosures, Tech StartUp and Support (1 year license). Training included.

We have reached out to the supplier of these items, and they have advised that we cannot supply Emerald High School with iPads as they require an Apple Care purchase, which must be made directly with Apple. In light of this information, we wanted to confirm whether we should proceed with submitting a bid without including iPads.

**Thank you for bringing this to our attention. We will supply the iPads, the rest of the items, the mounts, protective armor enclosure, Tech Startup, Support and Training will need to be provided by the company.**
