This amendment is to address the questions and concerns discussed during the Pre-bid Conference:

1. **Question:** Since Addendum #1 was issued removing the rented equipment from the Contractors Scope of Work, will the Contractor be able to use the equipment onsite rented or owned by others to unload the materials delivered to the site or will Contractor be required to have their own equipment on site to unload the materials?

Answer: Specifications have been revised under the section **SCOPE OF WORK (Exhibit A) DETAILED DESCRIPTION OF WORK TO BE PERFORMED:** Line item #3. Has been revised and now reads:

3. The Contractor will be responsible for purchasing, scheduling of the delivery of the per a staged schedule, unloading and site staging the material outlined in the Scope of Work. The material is to be installed by Horry County Stormwater personnel. The contractor is not responsible for unloading equipment that requires a Trackhoe or Front Loader.

2. **Question:** On the Official Bid Form under Unit Prices it ask for 24" & 30 " RCP Culvert. Can you further explain what you mean by "Culvert"? Is this a bevel end or flared end?

Answer: A Culvert refers a structure that allows water to flow under a Road, Bridge, Field, Etc.

The RCP referring to the Reinforced Concrete Pipe and we are requiring that ALL RCP Pipe to be Straight Wall.
