### Questions and Answers

- Under the scope of work listed below are Crepe Myrtles expected to be hard cut annually?  
Trees, bushes, and shrubs need to be weeded, trimmed, and maintained. This includes tree branches hanging over the curb line and out in the travel lanes dead tree limbs, the sprouts growing off the tree trunks. Please note that palm trees are NOT to be included for maintenance other than picking up palm fronds on the ground. Weeds need to be removed from plant and bush beds so that they are not growing out the sides or over the top of the plants.
- No. Hard cut only every 2-3 years depending on growth.**
