

Spartanburg School District 2RFQ1806 Artificial Turf for Boiling Springs High School

ADDENDUM 1

October 23, 2017

This Addendum #1 is being issued to address the questions that were submitted, as follows:

- 1. Will there be fencing included in scope of work? No
- 2. Are the perimeter drop inlet drains to remain for the new drainage system to tie-into? Or will the existing drop inlet system be removed? A drainage system for the field is the bidder's responsibility. There are no plans at this time to do anything to the existing drain.
- 3. Will the staging area be located at the southwestern corner of project where dirt road exists? If so, a section of the existing fence and asphalt trail will be removed and replaced? The laydown area has not been established.
- 4. Are new sports equipment (New football goal posts) to be included or does existing goal posts remain? The existing equipment will remain.
