Below is one question submitted via email on March 1, 2017 at 2:49 p.m. which is felt to have a significant impact on the submittals required by Dawson County.

Question: I have one follow-up question regarding the Sample Existing and Revised HMP submission. The body of the Existing and Revised HMP contain approximately 150 to 200 pages. The required Supplemental HMP documents, maps, forms, worksheets, minutes, sign-in sheets, presentations, and other information used, gathered, and provided in the planning process are included in the Appendices of the HMP. These Appendices contain 900 to 1000 pages. My question:

Is it permissible to provide the body of the Sample Existing and Revised HMP documents in printed, hardcopy format and to provide the Appendices on a DVD disc to reduce the volume of the hardcopy submission?

Answer: The entire required **Sample of an Existing and Revised Hazard Mitigation Plan, before and after update**, submission, to include any and all appendices, etc., **can** be submitted as a soft copy on a flashdrive, disc, memory stick, etc. Four (4) copies of the **Sample of an Existing and Revised Hazard Mitigation Plan, before and after update**, submission, including any and all appendices, etc. must be received with the Proposal package. There must not be any cost listed on this portion of the Proposal. This is the **only** section of the RFP response to be submitted **entirely** as a soft copy. All other materials submitted must follow the original guidelines of the RFP.
