Subject: RE: Spartanburg Rail Trail RFQ

Hey Carl, I've answered the questions for Martin.

1. Is there a minimum DBE requirement for the consulting firms. **There is no minimum requirement for DBE participation but DBE participation is encouraged. If the consultant will be using DBE's they should state who they will be using and the work they will provide as well as the % participation. They should also list any sub consultants they will be using such as testing consultants.**
2. Is the City going to be using SiteManager software for this project. **No**
3. Will the City take care of R/W acquisition. **Yes**
4. Will a DHEC permit be necessary. (not disturbing much ground) If so, will the City be performing this. **Yes**
5. Will the consulting firm be providing a daily inspector, or will the City provide that. **No, we will have a City inspector on site.**
6. The RFQ does not specify if the City wants a SF330 form completed with the submission. **The SF330 is not required but the consultant can provide it in their response as it provides a wealth of information on the firm' experience and staff capabilities.**

Mr. Wright,

I have not heard back yet regarding the questions below and whether we need a form 330. Has an addendum been sent out yet?

Thanks

Subject: Spartanburg Rail Trail RFQ

Mr. Wright,

Thanks for taking the time to meet with us yesterday regarding the Spartanburg Rail Trail RFQ. I have a few questions regarding the project. Some of which we did answer in the meeting, but thought it would be nice to have it written out.

1. Is there a minimum DBE requirement for the consulting firms.
2. Is the City going to be using SiteManager software for this project.
3. Will the City take care of R/W acquisition.
4. Will a DHEC permit be necessary. (not disturbing much ground) If so, will the City be performing this.
5. Will the consulting firm be providing a daily inspector, or will the City provide that.

Thanks and have a blessed day!
