1. I am seeking clarification in regard to the technology specifications in the IPD Services for Phase III, IV, and V athletic improvements for Horry County. After reviewing the RFP, I noticed items in section 74 on the Long Contract Form:

**74. Additional Substantial Completion Requirements:** In addition, the Contractor shall have all mechanical, electrical and plumbing installed and operational and all finishes complete, if included in the work to be performed. By way of clarification and not limitation, the following items must be completed before notifying anyone the work is ready for inspection:

E. Installation and testing of all electrical work, lighting, surge protection, converged network systems and low-voltage wiring.

G. Installation of all hall lockers, *video and audio equipment*, stage curtains, auditorium seating, *TV brackets*, white boards and other wall fixtures.

K. Installation of all athletic facilities, scoreboards, goal posts, bleachers, concession and storage, baseball backdrops and *other such athletic facilities*.

- a. *The only electrical systems we are planning for in Phase III (and subsequent phases), would be in ground COMBOXs with electrical receptacles at the common finish line on the tracks for timing system hookup and at midfield on each sideline for team use.*

*74. Additional Substantial Completion Requirements will be modified to read as:*

*E. Installation and testing of all electrical work.*

*G. ~~Installation of all hall lockers, video and audio equipment, stage curtains, auditorium seating, TV brackets, white boards and other wall fixtures.~~ REMOVED*

*K. Installation of all athletic facilities, goal posts, bleachers, storage and other such athletic facilities.*

2. Do you have the technology specifications (A/V) for these items that are mentioned in E, G, and K? And will this include sound reinforcement system (PA) for the athletic fields as well?

- a. *There has been no discussion at this time concerning PA system modifications at any of the schools.*
