

CONTRACT DOCUMENTS, TECHNICAL SPECIFICATIONS, AND CONSTRUCTION PLANS FOR CONSTRUCTION OF MOUNTAIN MEADOWS RD. ROADWAY & DRAINAGE PROJECT

The following clarifications, changes, additions and/or deletions are hereby made a part of the Construction Plans, Technical Specifications, and Contract Documents for the above – referenced project dated July 2019, as fully and completely as if the same were fully set forth therein:

**Clarifications to Contract Documents and Technical Specifications:**

1. None

**Additions/Deletions to Contract Documents and Technical Specifications:**

1. None

**Changes to Contract Documents and Technical Specifications:**

1. None

**Clarifications to Construction Plans:**

1. Does the project foresee any utility impacts?
  - a. The plans have identified horizontal location of utilities, and the plans do have quantities for relocation of meters, water valves and manhole adjustments. The excavation required for this project should be less than typical utility cover, but it will be the contractor responsibility to verify location of utilities in the field as stated in General Note #5.
2. Has the project identified a place for waste materials (salvageables, waste material, removed C&G, etc.)?
  - a. Yes, this is clarified in general note #8
3. Is the contractor required to obtain permit through Tyrone HOA?
  - a. No additional work permit will be required by HOA.
4. How will expansion joint between existing curb and gutter and new sidewalk be paid for?
  - a. Along Copper Dr. where existing curb & gutter shall remain in place, expansion joint material should be used between existing curb & gutter and new sidewalk construction. This joint material shall be included in the unit cost of the concrete sidewalk.
5. How will ramp conflicts with rock walls be handled?
  - a. Contractor shall construct ramps with minimal disturbance to rock walls. If needed, contractor shall place expansion joint material between sidewalk and rock walls
6. Has the contract designated a laydown yard for the project?
  - a. The contract has not determined a location for a laydown area. It will be the contractor's responsibility to locate a laydown area location and negotiate any permits or agreements required. The work associated with this coordination shall be included in the cost of Mobilization.

7. What are the bollards?
  - a. Bollards is a pay item establish to pay for wood posts to be replaced at new location (along Copper Dr.). These wood post should match existing condition, new post and new chain shall be installed.
8. New NMDOT guidelines call for placement of Detectable warning surface (DWS) in different locations than showed in plans. Will contractor need to relocate DWS in the field?
  - a. The contractor shall place the DWS as shown in the plans.

**Additions/Deletions to Construction Plans:**

1. None

12. Campaign Contribution Disclosure Form

#### **Bid Evaluation - Special Provision**

'Resident Bidders Preference', and 'Resident Veteran Contractor preference'. Bid award to be made based on lowest BASE BID.

#### **Project Description**

Project intent is to provide ADA accessibility at various street intersections to enhance pedestrian facilities. The improvement will incorporate the construction of ADA compliant ramps and landings. The project will also require asphalt patching, removals, traffic control, landscaping, and installation of permanent signing and striping.

#### **Construction Period**

Substantial Completion 134 Calendar Days

Final Completion/Payment 120 Calendar Days

#### **Material Storage Site**

Material storage shall be allowed within the road ROW, outside the roadway clear zone and near the project vicinity. Contractor shall be responsible for additional storage areas if needed

#### **Water for Construction**

Contractor is responsible for identifying the water source. This cost shall be incidental to the completion of the project

#### **Other Special Considerations**

NMDOT technical Specs "New Mexico State Department of Transportation Standard Specification for Highway and Bridge" 2014 Edition will be used in this project

#### **Permits & Others**

Contractor must obtain all applicable and required permits, not already obtained by the Owner or Engineer, from the local, state or federal agencies with jurisdiction (i.e.: New Mexico Department of Transportation (NMDOT), Construction Industries Division of the Regulation and Licensing Department of the State of New Mexico (CID), county, municipality, etc.).

**Coordination**

1. Coordinate scheduling, submittals, and Work of various sections of specifications to ensure efficient and orderly sequence of installation of construction elements.
2. All notices, demands, requests, instructions, approvals, proposals and claims must be in writing.
  - a. Any notice to or demand upon the Contractor shall be sufficiently given if delivered at the office of the Contractor stated on the signature page of the Agreement.
  - b. All papers required to be delivered to the Owner shall, unless otherwise specified in writing to the Contractor, be delivered to the Owner at the address stated on the signature page of the Agreement.
  - c. Any such notice shall be deemed to have been given as of the time of actual delivery, in the case of mailing, when the same should have been received in due course of post, or in the case of certified mail, or telephone facsimiles, at the time of actual receipt as the case may be.

**State Wage Rate Determination**

Refer to the wage rate determination included in the appendices to the Contract Documents.

**Bid Alternates**

None

**Maintenance Materials**

None

**Other Items**
