I am recommending the bid from ImageQuest with the lowest responsible bid of \$254,412.40. The chromebook cost of \$229,412.40 will come out of capital outlay. The accidental damage cost of \$25,000 will come from student insurance fees.

Expected delivery time based on ImageQuests bid is 8-10 weeks. However, I talked with ImageQuest and they believe it is probably closer to 4-6 weeks and are just being cautious with possible delays.

I am also requesting to sell/dispose of the equipment that these bids are replacing.
