

ADDENDUM NO. 1

DATE: February 7, 2020
TO: All Potential Bidders
FROM: Karisa Scott, Procurement Specialist
SUBJECT: Addendum No. 1 – Fire Extinguisher Inspections

BIDS TO BE OPENED: February 24, 2020, at 11:00:00 a.m. (Eastern Time)

This addendum is being published to provide clarifying information for bidders on how to calculate the total bid price and becomes a part of the Contract Document and modifies the original specifications as noted.

Bidders are to provide a unit price for each item listed. However, the Total Bid Price will be calculated based only on items for which the 2018 Unit Count has been provided. The calculation will be: Unit Price x Quantity = Total.

Attached with this addendum is an updated Bid Pricing Sheet to reflect the calculation. Additionally, an excel document of the bid pricing sheet is being made available. Bidders may use this to fill out their bid, but will be responsible for ensuring the math is correct.
