**ADDENDUM**

**ADDENDUM**

**ADDENDUM**

Addendum #2 on bid #4630 Precision Lathe, making the following corrections and clarifications.

- Question: In the packet there is a form for fingerprinting and background check. Is this required for this bid?

Response: Please disregard the Background Check form.

- Question: Under Features and Standard Equipment you have listed a 4-jaw 8" chuck. This is not standard equipment for the Sharp Lathe and will be an extra charge. We added this to the list.

Response: Yes we are aware this will be an extra charge for this feature.

- Question: Also under Features and Standard Equipment is a Collet Chuck. This is also not standard equipment for the Sharp Lathe. However, Sharp does offer a Collet Closer from a different manufacturer, JFK, which is also an extra charge.

Response: Yes we are aware this will be an extra charge for this feature.

- Question: The Steady Rest under Features and Standard Equipment has a capacity of 1/4" - 2.5", not the 3-3/4" listed. Sharp does not offer a large capacity steady rest.

Response: This came directly from a quote we have from 2 years ago.

- Question: Also under Features and Standard Equipment, you have listed "Wired 220V" with (440V - Optional) in parentheses. Does this mean that you want 220V or 440V? Most schools do not have 440V.

Response: We require a 220V

If you have any questions, please feel free to give me a call at (865) 457-6218.

Sincerely,

A handwritten signature in blue ink, appearing to be "P. Cotham", written over a horizontal line.
