Question: It is concerning the length of the 25ft poles. A 25ft pole will not fit into what is called a PUP trailer and would require a dedicated trailer to haul it. The cost of the PUP trailer is substantially lower. My question is this. Is it possible to cut the 25ft pole to fit the PUP trailer? By the time you install the pulley system and have the finial mounted the exposed length of the 25ft pole would be shy of 25ft. Lastly is the 6 6 inch base acceptable for the longer pole?

Answer: I would say it needs to meet industry standards. If there is a guideline for 25ft pole and PUP trailers, we'll operate with that. If not, and notifications are recommended for a usable system, let's roll with it.
