

St. Johns River Water Management District

Michael A. Register, P.E., Executive Director

525 Community College Parkway S.E. • Palm Bay, FL 32909 • 321-984-4940 • www.sjrwmd.com

DATE: April 22, 2024

TO: Prospective Respondents

FROM: Amy Lucey, Procurement Specialist

SUBJECT: Addendum #2 to quote request, # 39450. Apply Fertilizer to Levees – Upper St. Johns River Basin

As a result of inquiries, the following clarifications/changes are provided for your information.

Q1: Are all the levees accessible via ATV/UTV and full-size truck?

A1: Yes, all levees are accessible via a full-size truck. All levees have a stabilized surface to drive on.

Q2: Finally, the quote states the product needs to be applied to the top 15 feet of the levee, is this 7.5 feet on each side of the center line that you drive on? I am trying to ascertain whether the product is able to be applied in one pass.

A2: This is 15-feet each side of the levee commencing at the edge of the travelled surface not centerline of road. The top of the levee does not receive fertilizer.

NOTE: The Quote Due Date ~~remains~~ **has been changed to-3:00p.m., Thursday, April 25, 2024** **Friday April 26, 2024**

Please acknowledge receipt of this Addendum on EXHIBIT 2 - COST SCHEDULE FORM provided in the quote package.
