Re: Recommendation for Award  
Sealed Bids for Solid Waste Transportation

Mr. Berry,

Sealed bids were received and opened on June 10, 2021 at 2:00 P.M. for transportation of Municipal Solid Waste (MSW) from the Raton Transfer Station to multiple landfills located within 2 hours of Raton, New Mexico. I have attached a cost analysis that I used to determine the lowest cost to the City of Raton when transportation of solid waste and tipping fee's are factored in. Based on this analysis I am recommending award of a contract to Arthur Rolloff for transporting solid waste.

The recommendation is for the contract to transport waste to Arthur Rolloff for the transportation of solid waste to the Arthur Regional Landfill Inc. / GGH Wagon Mound LLC Landfill near Levi, New Mexico.

The Awarded Contract will be for an estimated 270 loads at a cost of \$225 per load for an estimated annual total of \$60,750 per year excluding New Mexico Gross Receipts Tax.

Please note this contract is for a base term of one year but includes the ability to be renewed for up to four years by consent of both parties.
