Station #11 Interior Remodel

### Questions and Answers

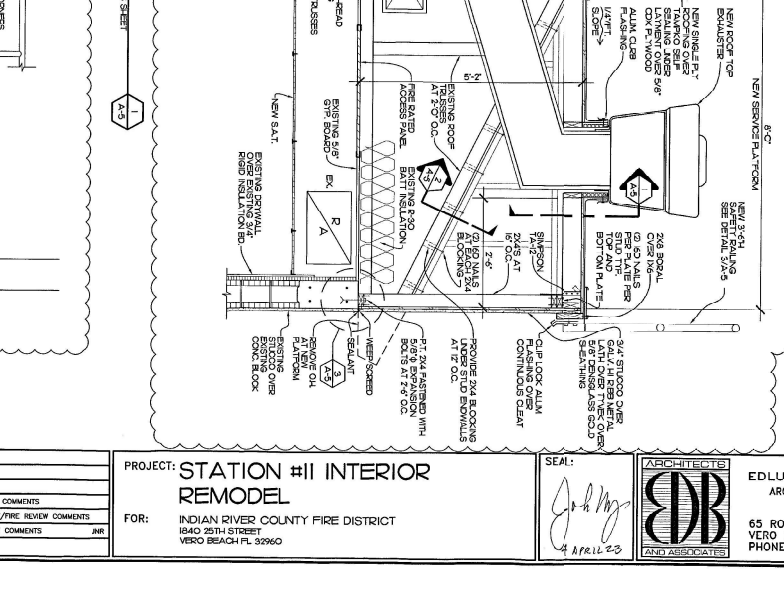

The documents and amendments continue to cross references. For roofing in aluminum, the common

1. thickness would be referred to as .032 or .040 (thicker of the two). The 24 gauge aluminum would be too thin to meet code for common roofing applications. Please clarify the desired metal.  
**The thickness would be .040, 18 gauge.**
2. Can you provide the width of the panel you would like?  
**16 inches.**
3. Can you provide a copy of the plans for the interior hood remodel?  
**See attached.**
