2. Submission is to be in one all-inclusive file titled "23-025 Quoter's name"

The deadline for RFI (questions) is Thursday, June 1, 2023, prior to 4:00 pm

#### Questions and Answers

Q1	I see in the FWQ that they are not requiring an electric license to complete this work as 1.6 says None for License requirements.
<b>A1</b>	<b>In accordance with Highlands County Building Department no additional licensing is required.</b>
Q2	Section 3.4.5 Camera Specifications "Starlight Technology for Low-light applications" is specific wording for the Dahua camera manufacturer, but you do not specify these cameras. Can we substitute a comparable camera manufacturer that will not use IR for black and white images at night, but uses an internal supplemental light?
<b>A2</b>	<b>Yes, Starlight Technology or comparable camera manufacturer capability for additional color coverage in low light areas.</b>
Q3	Another question on these cameras and NVR is they appear to be Chinese made (Dahua) and not National Defense Authorization Act (NDAA) compliant. Are there any federal dollars being used for this project that would prevent the funding from going through. I am asking as we have experienced issues with other government jobs in the past.
<b>A3</b>	<b>This will be funded by the Placid Lakes Special Benefit District account which does not involve any federal funding.</b>
<b>Attachments:</b>	NONE
