

S.C. Department of Health and
Environmental Control

Permit for Construction in Navigable Waters

in Accordance with R. 19-450 et. seq., 1976 S.C. Code of Laws

PERMITTEE: **City of Hanahan**

PERMIT NUMBER: **SC 19-010**

DESCRIPTION OF WORK: Construction of a timber boardwalk on Goose Creek
Reservoir in Berkeley County.

DATE PERMIT ISSUED: October 21, 2019

CONSTRUCTION MUST BE COMPLETED BY: October 21, 2022

We have reviewed plans for this project and determined that there is a reasonable assurance that the proposed project will be conducted in a manner consistent with the permitting requirements of R. 19-450 et. seq., 1976 S.C. Code of Laws. The SC Department of Health and Environmental Control has also determined that this work is consistent with the Coastal Zone Management Program (48-39-10 et. seq.).

This permit is subject to the (6) six special conditions on the attached page as well as the general conditions.

The SC Department of Health and Environmental Control reserves the right to impose additional conditions on this Permit to respond to unforeseen, specific problems that might arise and to take any enforcement action necessary to ensure compliance with State standards.

All activities authorized by this permit remain subject to the requirements of all applicable laws, regulations and ordinances of federal, state, and local governments. The permittee may not conduct or maintain any activities authorized by this permit unless such activities also comply with all other applicable laws, regulations and ordinances of federal, state and local governments.

This permit shall not be deemed to be in derogation of any property rights or interests of persons or entities other than the permittee with respect to (a) property upon which the permitted activity is situated, or (b) property affected by the permitted activity. This permit confers upon the permittee no greater rights than the permittee possessed before issuance of the permit with respect to property rights or interests of third persons or entities.

SPECIAL CONDITIONS

City of Hanahan

SC 19-010

Navigable Waters conditions:

1. The applicant must implement best management practices that will minimize erosion and migration of sediments on and off the project site during and after construction. These practices should include the use of appropriate grading and sloping techniques, mulches, hay bales, silt fences, or other devices capable of preventing erosion, migration of sediments, and bank failure. All disturbed land surfaces and sloped areas affected by the project must be stabilized.
2. Activities should avoid disturbance of wood shoreline vegetation within the project area to the greatest extent practicable. Removal of vegetation should be limited to only that necessary for construction of the proposed structures.
3. All efforts must be made to protect existing native riparian/littoral vegetation in and along shoreline areas.
4. All necessary measures must be taken to prevent oil, tar, trash, debris, and other pollutants from entering the adjacent waters or wetlands.
5. Once the project is initiated, it must be carried to completion in an expeditious manner in order to minimize the period of disturbance to the environment.

Coastal Zone Consistency condition:

6. In the event that any historic or cultural resources and/or archaeological materials are found during the course of the work, the applicant must notify the State Historic Preservation Office and the South Carolina Institute of Archaeology and Anthropology. Historic or cultural resources consist of those sites listed in the National Register of Historic Places and those sites that are eligible for the National Register. Archaeological materials consist of any items, fifty years old or older, which were made or used by man. These items include, but are not limited to stone projectile points (arrowheads), ceramic sherds, bricks, worked wood, bone and stone, metal and glass objects, and human skeletal materials.
