Prevailing Wage discussions

The wage determination incorporated into the bid solicitation and related contract award establishes the wages rates and fringe benefit rates which DOLI has determined to be prevailing in a given area for a particular type of construction.

After the award of the contract, but before contract execution, the County will resolicit DOLI for the same report to determine if there has been a change in the rates since the bid solicitation was advertised. If there has been any changes to the rates, we will provide these new rates to the awardee for the purpose of adjusting the line items/unit prices which may have been affected due to change in such rates. The awardee will be required to provide documentation to substantiate this change. In no case shall the awardee's profit margin as established by the original bid increase due to the increase in labor rates per the wage determination report. Contractor may not increase any unit or lump sum pricing except as indicated above.

We suggest that all bidders review the contract form attached to the solicitation bid as early as possible, so no time is lost after the award.

- All contractors and their subs will be responsible for meeting / exceeding prevailing wages as provided by Virginia DOLI and included in the bid documents.
- All certified payrolls are to be submitted through the eComply reporting system. Training will be provided to all contractors in advance of the work starting -- the vendor prefers to do these roughly a week prior so that the information is fresh once reporting begins.
- Daniel Stern will review all certified payrolls and contact contractors with any findings. He will also perform site interviews with employees to be checked against corresponding payrolls for accuracy.
- You can direct any questions about prevailing wage or reporting to Daniel Stern at dstern@arlingtonva.us or 703-228-0627.

7. Discussion:
Question to be submitted through Vendor Registry.
