## QUESTIONS:

**Q1.**  On page 20, section 'Schedule' of the RFP – Are we correct in interpreting this to mean that Griffin will first execute the valve exercising part of the work (line item 3) and then address repairs/replacements to the valve or the valve structure under the other line items. Therefore there would be no valves raised, realigned, repaired or aggressively cleaned within line item 3?

>    A1. If there is no issue with valve, then raise; if necessary, realign and clean. If there is a problem with valve, note the problem and move to next location.

**Q2.**  Is line item 3 from the price submittal section also intended to be used as the "valve exercising and GIS data documentation" that will be assigned/used by the City, to document valves AFTER they have been repaired or replaced so that the City has a consistent and up to date data set on all of the valves?  Do you have an estimated/expected quantity?

>    A2. The City anticipates there to be 242 valves for assessment, testing and cleaning, 242 valve boxes to be raised and 1450 valve boxes to be cleaned.

**Q3.**  There is a conflict with the dates on the cover and the Schedule in section 1.2. What is correct?

>    A3. The due date is Monday, November 13, 2017 at 2PM (local).

## REPLACE:

**Section 1.2, page 4, Responses Due:**
    Replace the current date on the above line with          'Monday, November 13, 2017 by 2PM'.
    (The date on the cover and mailing label are correct.)
