Compliance No. 1375181

Re: Everglades Foundation Barley Prize Project  
Consumptive Use Permit Determination  
No Permit Required  
Location – Seminole County, Sec 26, T20S, R31E

Dear Mr. Reiss:

Based upon the information provided to the District for this project, a Consumptive Use Permit will not be required for the proposed withdrawal of water from Lake Jesup for the George Barley Water Prize (GBWP) competition. This determination was made based on the following information that was provided:

- The withdrawal of water from Lake Jesup and the discharge of treated water returned to the Lake Jesup is within the same hydrologic drainage basin.
- The withdrawal of water from Lake Jesup is not anticipated to adversely impact the hydrology of the lake or the drainage basin.

This letter only applies to the Consumptive Use Permitting (Chapter 40C-2) requirements of the St. Johns River Water Management District and does not address other District permitting requirements (Environmental Resource Permitting) and other agencies that may require approval for this use. Should the specifications of this project change, you may be required to obtain a Consumptive Use Permit in the future. If you have any questions, please call me at (407) 659-4846.

Sincerely,

A handwritten signature in blue ink that reads "James Hollingshead".

James Hollingshead, P.G., Supervising Hydrologist  
Bureau of Water Use Regulation
