

ADDENDUM NO. 2
17-5-1 Cured in Place Pipe (CIPP)

RETURN WITH BID

May 23, 2017

TO: ALL PROSPECTIVE BIDDERS

FROM: Anna Hendrey, Purchasing Agent

Please be informed that Bid number 17-5-1, Cured in Place Pipe, will have the following language removed from the specifications:

Gravity Pipe Leakage Testing. - Leakage testing of the CIPP shall be conducted during cure while under hydrostatic pressure. For CIPP products in which the pipe wall is cured while not in direct contact with the pressurizing fluid, (e.g. a removable inflation bladder is used) the CIPP must be leakage tested in accordance with ASTM F1417.
