

Addendum #1

Questions:

1. The cinder blocks above the filing cabinet measure roughly. 24" H and 48"
2. Do they plan to keep the cabinet in this room?
3. If they plan to move the cabinet - will a 32" monitor and camera, enclosed wall mount be okay to quote?
4. If they keep the cabinet a 32" monitor plus an encasement will not fit. Will a 24" monitor without and encasement work?
5. If the ceiling tiles can be removed, we can quote a commercial grade 35X35X8 monitor and camera with enclosure and wall mount.
6. Do you have any courtroom drawings?

Answer:

The gray metal filing cabinet will be moved and you will have the entire wall for the enclosure the wall from door frame to door frame measures 51 inches so I think the 32inch with enclosure will still work in that spot..

The County Mayor office is checking to see if they have a drawing or diagram of the court room.
