PREFERENCES - A NOTICE TO VENDORS (SEP. 2009): On June 16, 2009, the South Carolina General Assembly rewrote the law governing preferences available to in-state vendors, vendors using in-state subcontractors, and vendors selling in-state or US end products. This law appears in Section 11-35-1524 of the South Carolina Code of Laws. A summary of the new preferences is available at <https://www.procurement.sc.gov/node/17040#ditem-1871> . ***ALL THE PREFERENCES MUST BE CLAIMED AND ARE APPLIED BY LINE ITEM, REGARDLESS OF WHETHER AWARD IS MADE BY ITEM OR LOT. VENDORS ARE CAUTIONED TO CAREFULLY REVIEW THE STATUTE BEFORE CLAIMING ANY PREFERENCES. THE REQUIREMENTS TO QUALIFY HAVE CHANGED. IF YOU REQUEST A PREFERENCE, YOU ARE CERTIFYING THAT YOUR OFFER QUALIFIES FOR THE PREFERENCE YOU'VE CLAIMED. IMPROPERLY REQUESTING A PREFERENCE CAN HAVE SERIOUS CONSEQUENCES.*** [11-35-1524(E)(4)&(6)]

PREFERENCES - ADDRESS AND PHONE OF IN-STATE OFFICE: Please provide the address and phone number for your in-state office in the space provided below. An in-state office is necessary to claim either the Resident Vendor Preference (11-35-1524(C)(1)(i)&(ii)) or the Resident Contractor Preference (11-35-1524(C)(1)(iii)). Accordingly, you must provide this information to qualify for the preference. An in-state office is not required, but can be beneficial, if you are claiming the Resident Subcontractor Preference (11-35-1524(D)).

_____ In-State Office Address same as Home Office Address

_____ In-State Office Address same as Notice Address (check only one)

Addendum #2 is being issued to clarify answers to questions submitted pertaining to this RFB.

You must acknowledge this Addendum #2 on page #2 of the original bid form.

Please note, unless otherwise stated, all stipulations from the original solicitation apply.

Question #1

The 20-acre portion of the parcel that a wetland delineation has been done a Delineation Concurrence has already been obtained. It appears the 20-acre portion already completed is the eastern side of the overall parcel shown on the right, correct?

- Yes. The 20-acre portion of the parcel is located along the eastern side of the property.

Question #2

For the Solicitation, the scope includes Army Corps concurrence of a Jurisdictional Determination. The following is an excerpt from the US Army Corps of Engineers Charleston District (includes York Co) memo to consultants:

“This message is in advance of a Special Public Notice that will be issued the week of April 18, 2022. The Regulatory Division will shift its programmatic process to prioritize review of permit applications and requests directly associated with active permits. The Charleston District Regulatory Division will no longer prioritize jurisdictional determination and/or delineation concurrence requests that are not associated with a permit action (Stand-Alone JDs). This programmatic shift is in accordance with agency mandates and enables the Regulatory Division to support an anticipated increase in program volume from the Infrastructure Investment and Jobs Act and other national authorizations.”

Unfortunately, at this time we have only been able to provide our field determinations (flagged boundaries) and drafted mapped wetlands areas as the corps will no longer provide determinations unless its associated with a permit. We would be happy to provide a quote and all necessary backup documentation (corps data point forms) as part of our bid. Our bid would include field GPS locating of boundaries as well as flagging.

- Yes, we are aware of the ACoE's programmatic changes and JD's will not be issued unless the design impacts the wetlands and special permitting is required. A flood study is currently underway and will determine if additional permitting is required. Winning bidder will be responsible for obtaining a Letter of Concurrence

similar to the attached 20-acre portion of the site. The described scope of work is suitable.

Question #3

Right under section III. Scope of Work/Specifications on page 17, it mentions a grand tree inventory and surveying. Is that part of this bid? If so, we don't perform those services. Can we bid only on the wetland delineation/Corps JD portion of it?

- Yes, there was an error in the wording, please see corrected Scope of Work

III. SCOPE OF WORK / SPECIFICATIONS

The Fort Mill School District is soliciting bids for **Wetlands Study at the Eubanks Property**. All bids are to be reviewed and the project managed by the Construction Manager.

Question #4

The solicitation scope requests, 'All corresponding identified areas are required to be field surveyed.' When a firm with an engineering/surveying COA enters into a contract to survey, it means under the control of a SC Licensed Professional Land Surveyor. We provide this service, but it is not a requirement of the Corps to securing a JD; although, very infrequently, some owners wish to survey their wetlands line. To secure a USACE jurisdictional determination, we normally flag wetlands and locate (not survey) the line with a sub-meter GPS. We are happy to professional land surveyor locate the flags, but it will make the overall Scope of work significantly more expensive. Please confirm whether or not you are going to require all bidders to PLS locate the wetland line and property corners.

- The winning bidder will be required to identify all wetland areas and install flags with a sub-meter GPS locating the demarcation. Licensed field surveying of these areas will be required, however will be handled outside of this contract.

Question #5

Do you have the property corners in CAD for the area within which you wish for a wetlands delineation that you can provide the successful bidder prior to commencement of the work?

- This information can be provided as needed to the winning offeror. However, refer to question #4 response. With the removal of the licensed field survey requirement, this information may not be required.

Question #6

Based on the request that the bidder to begin work ASAP and the estimated maximum contract period of 2 months, we believe that it may be urgent for you to accomplish this Scope of work. Are you aware that the Corps is taking an extremely long time to issue JDs?

- The noted contract period pertains to the completion of the field work and flagging.

Question #7

Will a Delineation Concurrence achieve your Scope of Work?

- Yes

Question #8

It's stated that "All corresponding identified areas [streams/wetlands] are required to be field surveyed." Does that mean we need to GPS the flagging during delineation or a true survey needs to be done? If the latter, are we responsible for hiring the surveyor? We can GPS flagging locations, but our meter is not survey grade—it is advertised as sub-meter accurate but is not meant to take the place of a true survey.

- The winning bidder will be required to identify all wetland areas and install flags with a sub-meter GPS locating the demarcation. Licensed field surveying of these areas will be required, however will be handled outside of this contract.

Question #9

Is a Corps Jurisdictional Determination required or will a Delineation Concurrence like what was obtained on the 20-acre portion be sufficient?

- Yes, we are aware of the ACoE's programmatic changes and JD's will not be issued unless the design impacts the wetlands and special permitting is required. A flood study is currently underway and will determine if additional permitting is required. Winning bidder will be responsible for obtaining a Letter of Concurrence similar to the attached 20-acre portion of the site. The described scope of work is suitable.
