**ADDENDUM NO. 3**

DATE: June 28, 2018

PROJECT: ITB 0218-1870  
BETHUNE POINT UPS-UV BATTERY REPLACEMENT

OPENING DATE: July 6, 2018

This addendum is hereby incorporated into the Bid Documents for the project referenced above. The following items are clarifications, corrections, additions, deletions and/or revisions to and shall take precedence over the original documents. Additions are indicated by underlining, deletions are indicated by ~~strikethrough~~.

1. Answers to Bidders' written questions:

Q1: Will the batteries be delivered to a dock (and the City will get them to the building) or will they require inside delivery to where the UPS(s) is located within the building...?

**A1: Batteries will be delivered to 1 Shady Place, Daytona Beach, FL 32114 and dropped so that they will be under cover. The City doesn't have a dock. They will be dropped at ground level on the Bethune Point WWTP premises approximately 50 yards from the building in which the installation will take place. Inside delivery will be required. The City does NOT have any forklift. The Contractor will be responsible for transporting batteries from the dropped location to the cabinets for installation.**

2. All other terms and conditions remain the same.

The Bidder shall acknowledge receipt of this addendum on the Bid Proposal Form.

The City of Daytona Beach  
Kirk Zimmerman, CPPB  
Buyer
