

**Anderson County Schools
Request for Proposals #4934
District Chromebook and Peripheral Technology
Question & Answer**

1. I have a question about the Chromebook specs. The device I want to spec has the N4000 Processor, not the N3060. Would that be okay to enter?

Answer: We ask that vendors bid as close to the spec as we have requested. However, if the vendor is unable to directly match the requested specification we ask that their solution meet or exceed the requested item specifications.
