

ADDENDUM NUMBER ONE FOR RFQ 153022

DATE: June 9, 2017
TO: ALL POTENTIAL BIDDERS
FROM: LYN MAJESKI, ACCOUNTING DIVISION MANAGER
BID FOR: ROADBLAZER ROADPAK 2-PUMP TRAFFIC MARKING EQUIPMENT

This addendum forms a part of and modifies the bid specifications for the above item for the City of Oak Ridge.

ITEM 1 – Questions received from Potential Bidders

1. With regards to the above referenced RFQ, I do not see anything about training or installation. Will the city require the successful bidder to provide set up and installation of the RoadPak onto a truck? Also will the city require the successful bidder to provide any start up training?

Yes, the City does want installation and training included.

2. I see that the city would like to add an additional Bead Tank to the unit along with a 33 gallon paint tank. Would the city be interested in adding the RoadPak accessory frame kit, part # 24H585? You can mount either the extra bead tank or the 33 gal paint tank to the standard RoadPak frame, but there is not enough room to add both, the extra bead tank and the 33 paint tank.

The City does not want the accessory frame kit as we will customize the locations of each tank in the best location for ease of filling and removal.

******* Acknowledge receipt of this addendum when you submit your bid. *******
