Correction to an answer given in Addendum No. 1

Question #2: Is it ok if our sub-contractor (the installer) has an Alabama contractor's license or does the bidding entity need the license?

Answer: ~~Yes, it is okay for the sub-contractor to hold the Alabama contractor's license. The contractor performing the physical on-site work needs to be licensed in Alabama and provide the proper insurance coverage.~~

The bidding entity named in the bid response must be licensed in order to bid on projects over \$50,000 in accordance with the regulations set by the Alabama Licensing Board for General Contractors.
