

“City of Havelock
Wayfinding Signage Program”

Addendum 2
February 20, 2023

Questions Received

1. We are interested in submitting a bid for your upcoming project. Can you confirm that you have an approved NCDOT encroachment finalized for your signage? If you do not, your 60-day completion is not realistic. The DOT is running 8 to 10 weeks to approve encroachments.

Our District DOT office has confirmed that their turn around is 4-6 weeks as long as package is comprehensive and does not require revisions. Bidders should anticipate submitting complete packages and receiving the agreement no later than six weeks after satisfactory submission.

Changes to Bid Documents

1. The period of performance has been extended to 90 calendar days from the NTP.
2. Liquidated damages will now start after 90 calendar days from the NTP.
