ADDENDUM No. 1

To all potential bidders of the Pest and Rodent Control Contract Bid:

Question 1: On page four, first paragraph states - "All Companies interested in submitting a bid must be licensed, bonded, and have certified operators in Category 7D (School Pest Control)".

According to the State of Louisiana's Department of Agriculture and Forestry website, it is my understanding that Category 7D licenses are for employees of schools that are applying their own pesticides and herbicides. I don't believe pest control companies or their Service Technicians are required to have Category 7D licenses. If we are required to have this certification, please let me know where I can find that information.

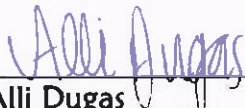

Answer: This is correct. The instructions should read, "All companies interested in submitting a bid must be licensed and bonded." There is no need to have certified operators in Category 7D.

Question 2: The advertisement states that bids will be for a five year contract, as well as on the top of page three, but when you get to the bottom of page three, it states that bids will be for a one, three, or five year contract. Which is correct?

Answer: Bids will be accepted only for five year contracts.

Other instructions pertinent to the Pest and Rodent Control Contract Bid: For any information on the layout of the new Southdown Elementary School being built, contact The Merlin Group (985)876-4218. Also, please use the revised bid form to submit bids.

The instructions contained within Addendum No. 1 will supersede all bid instructions and specifications.
