End of Page Two

**Addendum 3 Clarify questions after map reviews.**

**1. Can “As Built” drawings showing dimensions and elevations of each school be provided? We as well as other Offerors will need them in order to provide accurate preliminary designs/layouts and pricing.**

**Vendors have been provided access to all as-built drawings the District has available for the schools included in the solicitation.**

**2. Is the School District interested in receiving optional pricing for First Net cellular signal enhancement along with the ERRCS pricing requested? This system can run parallel with the ERRCS system and use many of the ERRCS system components.**

**Vendors may include this as optional pricing, but this information will not impact or influence proposal evaluation or project award.**

**3. Is there any pathway survivability requirements of backbone cabling, such as enclosures or metal raceways? We understand all coaxial cable will be Plenum grade and penetrations fire stopped.**

**Cable needs to be run in existing cable trays, j hooks, or cable supports.**

**4. Due to the current supply chain and pricing climate, how long do you require the initial solicitation pricing to remain in effect?**

**The pricing proposed will be the pricing we pay for the first five schools. If additional schools are added at a later date then a vendor can justify adjusting your bid if needed but we do have the right not to use the original bidder if we feel the increases are not justifiable.**

**Please be sure to acknowledge Addendum #3 on page 2 of the original bid form.  
All other stipulations from the original solicitation apply solicitation.**
