Addendum #01

July 18, 2022

**IFB 23-B0002
Firefighting Boots**

The purpose of this Addendum #01 to IFB 23-B0002 for Firefighting Boots, dated July 7, 2022, is to answer the following question:

1. Can you define what is meant by “special sizes” on the price schedule? Also, should shipping be included in the total bid price?

Haix manufactures the requested boots in the following sizes:

- Airpower XR2 – Men’s 4.5 – 15, including half sizes; Women’s 5 – 10, including half sizes
Available widths: Medium, Wide, Extra Wide
- Fire Eagle Air – Men’s 5 – 16, including half sizes; Women’s 5 – 12, including half sizes
Available widths: Narrow, Medium, Wide

The City does not expect that any vendor would carry all size combinations in stock, and the City recognizes that vendors may have to obtain some size combinations from the manufacturer as a special order. Any size combination that is not carried “in stock” and must be obtained from the manufacturer as a special order would be considered a “special size” on the price schedule. If the vendor price for all size combinations is the same, then that same price should be marked on the price schedule for lines identified as “regular size” and “special size.” Line 9 on the price schedule asks for a price for shipping per pair of boots.

Sealed bids are due no later than Thursday, July 21, 2022 at 2:00PM (local time.) No electronic submissions will be accepted. The City is not responsible for late or misdirected mail.

Thank you,
City of Myrtle Beach
