

City of Havelock, Manhole Repair
Nunn St at Joes Branch in Havelock, NC. 28532

Addendum 2

January 29, 2024

Questions Received

1. Is having trouble understanding the requirements of the traffic control item in the bid for this job. Upon investigating the job site, we realized there is already traffic control in place. Do we need to supply our own traffic control, or will the City of Havelock's signs and cones remain in place throughout the duration of the project?

The City's current closure devices will remain in place. To the extent that devices require temporary removal for work area access, the City will set aside and reset devices as required in coordination with the contractor's work.
