

WILLIAMSON COUNTY GOVERNMENT

Addendum #1

Williamson County Community Development Multi Modal Plan Due August 15, 2024, 2:00 p.m.

Williamson County has received the following question:

Q: We are planning to submit on the RFQ for the multi-modal master plan and wanted to ask about the requested statistically valid survey. We do a lot of planning work for parks, greenways, etc. and sometimes see this request but the Client may not want to pay the cost of a statistically valid survey and simply wants a thorough survey that matches the demographics of their community.

We are happy to include a team to provide the statistically valid survey requirement, but wanted to double check before we include that versus a more cost-effective survey mechanism? We can also show both options in our approach if that is easier and then if selected can discuss with staff their desired approach

A: Please show both options.
