

**Addendum #2 2324-012 3/13/24**

1. The blank column of the Bidding Schedule / Cost Proposal is titled "Bid Price Range\$/Hour" but if I am understanding the response correctly, we **are not** allowed to put a rate range? We have used rate ranges in the past to help school districts save \$ when we have a candidate newer in their career versus a seasoned professional who has been working for 10 years. In that case, I would put a range like \$72-\$80, instead of a flat rate. **We will accept a range for experience in each category.**
