

**Bid #4787 Surface Prep/Grading of a New Concrete Pad**

**Second set of Questions and Answer**

**August 25, 2017**

1. The explanation concerning the fill is somewhat confusing. I wish to confirm that this is strictly filling as it mentions a 6" cut in the scope of work.

Answer: Fill - There is a 6" cut along the northern edge of the fill line

2. On both proposals it is mentioned that plans are available for viewing. Is there a way to get a copy or set a time to view them and who is our best contact to see the site?

Answer: Please contact Geoff Trabalka at (865) 256-1906.
