

St. Johns River Water Management District

Michael A. Register, P.E., Executive Director

525 Community College Parkway S.E. • Palm Bay, FL 32909 • 321-984-4940 • www.sjrwmd.com

DATE: March 6, 2023

TO: Prospective Respondents

FROM: Amy Lucey, Procurement Specialist

SUBJECT: Addendum #3 to Invitation for Bid, # 38498, Geosynthetic Slope Stabilization – Welland Road, Lake Apopka.

As a result of inquiries, the following clarifications/changes are provided for your information. Please make all appropriate changes to your bid documents. Note: changes are reflected with original language shown with strike-through and new language is underlined.

Q1: In order to award, The awardee will have to be a certified installer of this product. Will this be a requirement in order to bid on this project and if so will there be a requirement to submit a certification of installation in the bid packet? Please advise

A1: The selected contractor will need to be a certified installer of the product. However, this certification does not need to accompany the bid, but will be required prior to installing the product/system. It is our understanding that becoming a certified installer will require a minimum of three days; one day in the classroom and two field days. For training held at the supplier's work place (Boca Raton, Florida or on a nearby jobsite), no fee is charged to become certified.

NOTE: The Bid Due Date remains 2:00 p.m., **Tuesday, March 14, 2023.**

Please acknowledge receipt of this Addendum on the Bid FORM provided in the proposal package.
